Secretary.

September 16th, 1918, a special conference of the Publication Committee and officers of the Woman's Board was held to consider the establishment of a Joint Despatch office. Those present were Mesdames Bennett, Gregory, Gildersleeve, the Misses Rue, Petrie, Fish and Penrose.

Letters were read from Mrs. Walker, Mrs. Corning and Mrs. Beckett; later a letter was received from Mrs. Gregory. A copy of the paper prepared by Dr. Ealsey and Mr. Loiseau, outlining the plan for a Joint Despatch office, had been previously submitted to each person.

Mrs. Bennett asked Miss Rue to explain advantages and disadvantages of proposed plan, which she did, and also answered many questions. Miss Rue stated that approximately 75 % of orders including remittances, were for ten cents or less, naturally making bookkeeping an expensive proposition. At present approximately ten thousand dollars is spent for administration, express and postage of the Literature Department as now maintained by the Boards of Home Missions. Of this twenty-three hundred dollars covers the salaries of four clerks, whose time is entirely used in the shipping department, no account of Miss Rue's oversight is here included. Serious exception was taken to the implication in Article IV that more might be involved in the new Joint Despatch Office than simply shipping supplies.

Question asked,"Why should Joint Despatch Office ever infringe literature?"

Question asked, "To whom would the Head of this new Department be responsible?" Also, "To whom would the stock be charged?"

After a lengthy discussion revealing how radical a change the new plan proposed, it was finally decided that the committee approve the proposition as a whole but before presenting it to the Woman's Board, desired a detailed statement of the plan including an estimate of the cost of maintaining the Joint Despatch office, so as to show how it would be an economy in money as well as in time and efficiency.

Since the meeting Miss Rue has prepared the following detailed estimate of shipping department of our present Literature Department:-

ESTIMATE OF SHIPPING DEPARTMENT

(Estimated as accurately as is possible in Literature Department)

Salaries.....	$2220.00
Expense and postage reduced by $674.44 that was returned.....	651.37
Postage stamps received and transferred to Expense Account...	1252.30
Envelopes,packing,wrapping Paper,twine and sundry supplies for shipping.....	455.92
	4579.59

Memo for Miss Fraser:

Some time ago Dr. Halsey and I were appointed a special committee to consider certain problems of our Boards covered by the accompanying proposal. This proposal is now being laid before both Boards. It is understood that it will come up at the conference of our Home Board staff at 11 o'clock Wednesday September 11th. You will wish to give it careful consideration in advance so that you may offer counsel at that time.

JOINT DESPATCH OFFICE.

— 0 —

Proposed:-

1. That the Boards of Home and Foreign Missions join in establishing and maintaining an office for the despatch of all supplies. (The Foreign Board will probably not find it practicable to include its shipping to foreign destinations.)

2. That all departments of both Boards and the joint Department of Presbyterian Missionary Education commit all literature and other supplies designed for distribution throughout the country to this joint despatch office.

3. That the despatch office be equipped to handle and ship promptly all orders transmitted through any department of the Boards; and that its accounts shall be so kept as to charge against each Board and department its share of the operating expense.

4. That the despatch office at present be charged with no responsibility for initiating literature not negotiating with printers nor otherwise producing supplies; but that its duties be strictly confined to those of the prompt and economical despatch of supplies delivered to it and ordered out.

5. That, while it would seem wise to confine the duties of this office to shipping for the present, the matter of making it also a "purchasing agent" for the Boards located in New York be considered at a later date.

6. That as one important detail the office be charged with maintaining an automatic invoice system so that demand for reprints may be known in advance of the exhaustion of stock in the case of any and all pieces of literature.

7. That any Board or Department shall be at liberty to maintain in the joint office lists for the periodical despatch of literature as it may think best.

8. That the Boards and their several departments study cooperative methods and arrange their programs of circularization so that missionary literature shall reach the churches to the best possible effect.

———— 0 ————

This proposal is made in the interests solely of economy and efficiency. Present methods are open to censure from this point of view.

Interference with liberty and initiative in the creation of literature in any department is in no sense proposed.

The foremost intention is the installation of the most modern, prompt and accurate shipping system. The best trained shipping clerk available should be placed in charge, with competent help. The system which has given the great mail order houses a world-wide reputation is none too good for the missionary propaganda.

Memorandum for Miss Frazer

Commenting on your memoranda from the meeting of your special conference on September 16th, when the plan for the Joint Despatch Office was discussed, I should say that the request for more definite data before the plan is formally presented to the Woman's Board is wholly reasonable. The paper so far drawn up is designed only to introduce the topic and lead to its discussion by all concerned. So far the suggestion has been cordially accepted everywhere.

You raise three queries:

First. "Why should Joint Despatch Office ever initiate literature?" As stated in the paper, it is not designed that it shall do so now; nor, indeed, is it in anybody's thought that it shall ever initiate literature. The suggestion in No. 4 of the paper implies a possibility that it may by a re-ordering eventually "negotiate with printers or otherwise ~~to~~ produce supplies." As the paper indicates, some of those with whom we have advised believe that a Joint Producing Agency may later seem wise, and this Office might be made such an agency. It is to be remembered that this plan has been ordered by the General Assembly, and the fulfilment of the Assembly's order awaits the action of the Executive Commission. They have taken no action yet, but it is very desirable that when they do act the Boards shall have an opportunity to shape the policy inaugurated.

Second. "To whom would the head of this new Department be responsible?" The question has not been widely discussed. It would seem to be natural that a joint committee, representing the Boards, should have general supervision.

Third. "To whom would the stock be charged?" I am not sure that I get the point. Of course the Despatch Office would keep accurate

invoice and it would be held responsible for the proper handling of all material committed to it. The bills for producing the material would of course be chargeable to the agency creating the literature. The Despatch Office would not in any way be concerned with these bills.

In short, the Despatch Office would operate somewhat like a bank: Instead of dollars it receives copies of leaflets and pamphlets; it pays out these values to the persons and in the numbers ordered by those who have made the deposits with it.

If I do not hit the point please allow me opportunity to try again.

Sept. 26, 1912.

TERMS ON WHICH LITERATURE IS SENT.

I. Books and Prayer Calendars will be sent upon request to secretaries of literature and study class leaders who will be responsible for them. In order to receive credit for copies remaining unsold they must be returned in perfectly salable condition within 30 days from date of bill with return transportation prepaid.

II. It is inferred that persons ordering supplies will exercise the best judgment in selection and in stating quantities desired, therefore credit will not be allowed on more than <u>one third</u> of the returnable literature charged on a bill. Credit cannot be given on publications that are not included in the bill.

III. When literature is returned a letter giving an itemized statement of the contents of the parcel should be sent by mail at the same time.

IV. Literature that does not appear new or has been marred in any way by lead pencil or finger marks cannot be credited because it is rendered unfit for our sales tables.

V. Leaflet publications the price of which is less than ten cents per single copy are not returnable.

VI. Societies should exercise care not to return to our department literature intended for Boards located in other cities as it cannot be forwarded.

VII. A discount of 20% is allowed to synodical and presbyterial secretaries of literature on all orders for leaflets amounting to $1.50 or more. The Prayer Calendar and Text-books for study are not subject to discount except when one hundred or more copies are ordered at one time.

VIII. When a discount is allowed transportation is always added to the bill. In case of no discount transportation is met by the Literature Department.

SYNODICAL AND PRESBYTERIAL FILES.

IX. Our Women's Board of Home Missions has supplied without charge a complete file of its leaflet publications for each synodical and presbyterial society, but because of the large financial outlay required to do this, pamphlet and book publications exceeding ten cents in price have not been included.

X. These files are held in trust by the synodical and presbyterial secretaries of literature as an essential aid to their work and when new officers are elected they are to be transferred intact. Leaflets loaned or lost must be replaced at the expense of the society to which the file belongs.

Meeting held 4/4/13.

In view of Mrs. Schuknecht's long and faithful service extending from 1900 to the present time, and in view of the additional fact that she is evidently in need of a rest, it was voted to recommend that she be given one year's leave of absence on half pay from September 1.

HAINES. L/McLean, 3/29/13, relative employment of Dr. Palmer. It was judgment of the conference that in view of the fact that Dr. Craig's salary would begin April 1, the least possible amount ought to be expended for medical service pending his arrival August 1.

HARLAN. L/Johns, 4/7/13 and Jones, 4/5/13, calling attention to the fear that of the community as to the safety of our academy building, now rented to the public school authorities. It was the judgment of the School Department that there was no cause for alarm and no action, therefore, was taken.

COLEGIO. L/Rowe, 4/1/13, relative policy for the new year, and suggesting that the school offer a Christian home to girls living in the small towns who wish to attend public schools in Mayaguez. It was the judgment of the Conference that it would be best to conduct the Colegio merely as a boarding school for girls and a day school for boys and girls.

DORLAND INST. L/Phillips, 4/7/13, calling attention to the request that we sell a site for a brink plant on our farm at Dorland. It was the judgment of the Conference that it would be unwise to make this sale so long as we are conducting a dormitory at the Willows.

It was voted to recommend to the Woman's Board the passage of a resolution requesting the Board of Home Missions to advance $10,000 from the Kennedy Fund as an interest bearing loan, for the erection of the new school building at Los Angeles, this amount to be refunded by the sale of the old school property.

Permission to solicit $100, was granted Miss Hazen. No action was taken relative the salary of an industrial teacher, but it was the judgment of the Conference to make no promise, but rather to plan to carry on the work at the Marina on the same basis as that at the Pueblo Nuevo.

It was the judgment of the Conference that pending the adjustment of property interests of the Woman's Board in the stations recently turned over to the Department of Church and Country Life no property should be removed from any station without the consent of the Woman's Board. It is thought inadvisable to recommend that such consent be given in this particular instance.

DEBT. L/Dr. Thompson, 4/28/13, submitted. The Conference recommends the adoption of the following in answer toDr. Thompson's letter: "The Woman's Board would express appreciation of the offer made by the Secretary of the Assembly's Board with regard to the matter of adjusting debt of March 31, 1913, but regret to state that at present they are unable to accept conditions named."

LAWSON. L/Henderson, 4/29/13, and Doolittle, 4/28/13, calling attention to friction between the pastor, Mr. Price, and the school. KENTUCKY. L/Childs, 5/24/13 regarding conference with Dr. Irwin, Mr. Brown and Mrs. Porter relative work in Kentucky. Mr. Brown and Dr. Irwin both suggested the desirability of another location for Langdon Memorial School in some county which would better represent the real mountain work. The Conference was very emphatic in its judgment that no plans should be made for changing this location. In this connection it was reported by one of the officers that the suggestion had been made by Dr. Irwin, that in case a boys' school were established in Harlan County he might secure funds to continue the girls' school at Harlan as an independent work. The Conference wished to place itself on record as being opposed to the expenditure of Presbyterian money in Harlan County for more than one school, as the demands of any new school that might be established would be such as to require every dollar that could be raised for this purpose.

HAINES. L/McLean, 5/20/13 asking (1) that when Mr. Craig becomes Superintendent Mr. McLean may have control of the new launch, and(2) that he may represent the Board with reference to the property aside from the hospital. It was the judgment of the Conference (1) .that the Home Board be asked to purchase the launch, as it is evident that it will not be needed for the work of the hospital; and (2)that Mr. McLean be left in charge of the Woman's Board's property outside of the hospital.

HAINES. The action of this conference 6/6/13 relative launch was brought up again for discussion, Mr. Allaben reporting that Dr. Thompson had expressed his willingness to recommend the purchase of the launch by the Home Board, but in that event it would probably be necessary to charge the Woman's Board interest on the debt. After discussion it was agreed to leave Mr. McLean in charge of the launch and to state to Dr. Thompson that the Woman's Board was loaning the launch for the use of the general work of the mission provided the Home Board would care for the upkeep.

SITKA . L/Findley, 6/4/13, and L/Bridgham, 6/4/13, asking increase of salary to $500 for Miss Findley on the basis of additional music work. It was the judgment of the conference that this addition should not be granted because of the policy of the Board to require of its workers such general service as could reasonably be expected regardless of the special assignment of duty, but it was agreed that if Miss Findley would undertake the music work she should be relieved of all other extra responsibility.

WOLF POINT. L/King, 6/10/13, recommending increase of salary for Miss Evans from $450 to $500, stating that this increase has been customary in the second year of service at her school. Voted to approve of this increase to take effect September 1st.

SHELDON JACKSON SCHOOL. L/Miss Lesley Jackson, 6/12/13, making recommendation as to change of inscription and submitting photographs of the boulder. It was agreed by the conference (1) that the tablet should be rectangular, (2) that Miss Jackson should be reminded of the fact that the inscription used on the design had been submitted to her and had been approved by her. The following memorandum was presented by the School Department and the recommendation tentatively approved:

"Memorandum of conference with Dr. J. K. Thompson and Dr. Moffett relative to our attitude towards plan of Presbytery to provide a pastor for Dwight, Badger Lee and McKees.

"One of the objects of providing for this pastorate is to open the way for giving some special training in simple homiletics to Indian boys who give promise of becoming suitable candidates for work among their own people. Some difficulty may be experienced from the fact that there is no manse for such a pastor at Dwight, and the suggestion that the school provide quarters for such a minister is not a feas-

ible one. I agreed, in the event that suitable quarters could be provided for such a pastor, to recommend to the officers of the Woman's Board consideration of a plan whereby, under the direction of the superintendent of our school, such students as in the judgment of our superintendent should be capable of pursuing such simple courses in homiletics as have been suggested, and who give promise of becoming successful evangelistic workers, should be given permission to take these courses under the pastor appointed, with the definite understanding, however, that this arrangement will involve the school in no organic relation with the pastor or the Presbytery.

SITKA. L/Bridgham, 6/7/13, giving a detailed report of visit to various stations in Alaska. As this indicates deplorable lack of co-operation on the part of the various missionaries of the Board, it was voted that this should be referred to joint conference for consideration.

COLEGIO. The following special recommendations as to the policy for the Colegio were presented by Mr. Allaben and approved:-

" Proposed policy for the Mayaguez Colegio. Owing to the relative excellence of the public school facilities at Mayaguez it is quite apparent that we should plan to close out our day school work at the Colegio as rapidly as may be done with due regard for our patrons and the church work, and accordingly the following recommendations are proposed:

First. That we work this year toward the abolishment of all high school work, and effect this arrangement ~~as~~ the close of the school year 1913-1914.

Second. Admission of pupils to grades six, seven and eight this year to depend upon conditions ~~for this year~~, with the object in view of reducing the grades to the fifth, beginning with the school year 1914-1915.

Third. That the assignment of student teachers to grades one and two be discontinued, and that we place those grades in charge of ~~the~~ American teacher on the half day session basis.

6/30/13.

Fourth. That the practice teaching required of our students in the high school department be given in the different grades.

Fifth. That the principal be instructed to increase the community activities of the school through the school Y. W. C. A. and other similar organizations.

Sixth. It is my judgment that Miss Rowe, who has been acting principal for over a year, should be made principal."

FARM SCHOOL. L/Field,8/11/13, asking information in regard to the study of moths and butterflies, with the idea in mind of doing this work at the Farm School. As this involves the question of the course of study, it was voted to refer the letter to Dr.Roger for information and meanwhile to find out the cost of the necessary books.

OCATE. L/C.C.Cordova, 8/2/13, asking that school work be reopened at Ocate. Request declined.

EMILY YALE SCHOOLS. L/Mrs.Moses, 7/29/13, relative to including the name of these schools in the annual directory. Mr. Allaben reported that at the time the directory was issued last year it was thought best by the Conference to omit from it those names of schools among foreigners where the Board did not issue commissions. In view of the change of policy regarding this work it was the judgment of the Conference that in the next issue of the directory all the stations where work is being done by women's societies among foreigners should be included.

Present: Mrs.Gildersleeve, Miss Fish, Miss Petrie,
Mrs.Potter, Mr.Allaben.

KIRKWOOD MEMORIAL SCHOOL - Mr.Allaben reported very serious objections to further expenditure on permanent buildings at this station, owing to the fact that to date we have been unable to secure a satisfactory water supply, it being necessary to haul the water by horses from the river during several months of the winter season. This, together with the bad sand storms and the fact that we have no property of any great value at this point justifies the raising of a very serious doubt as to the advisability of spending the money proposed for the new hospital, although foundation for that building is already laid. The cost of closing the contract will be $577. Of this there will probably be a salvage of $300. on material which can be used elsewhere, making the total loss on the whole of $300. It was VOTED that the contract be cancelled and the question of moving the school be brought up later for definite consideration.

Mr.Allaben

DWIGHT - Mr.Allaben presented his report of his visit to the Dwight School and strongly urged the use of the present site for the erection of any larger school for Indians in Oklahoma that might be contemplated, emphasizing the following points:

(1) Location on main line of Kansas City Southern Railroad, with every reason to suppose that we can have a flag station on the school property;

(2) The presence of abundant water supply from wells with the possibility of a gravity system;

(3) The general healthfulness of the location;

(4) The fact that we have had a successful school in operation there for many years;

(5) The naturalbeauty of the surrounding section and the good elevation of the site now used.

Mr.Allaben's special recommendations for equipment and improvements to be supplied immediately were as follows:

(1) The erection of a frame dining hall, cost to be determined later, from $2000. to $3000;

(2) The purchase of the following equipment:

10/1/13

100 acres of land - - - - - - - - - - - - - - - - -	$4000.
Dining hall - - - - - - - - - - - - - - -	$2000 to 3000.
4 Doz. dining chairs, mission finish	
Bath tubs for girls' dormitory	
100 beds and mattresses	
2 teachers' beds	
100 pairs blankets	
400 single ~~beds~~ sheets	
~~200~~ 200 pillow cases	
Towels	
Table linen, etc.	
50 pillows	
~~100~~ folding chairs (See Albert Pick & Co.)	
2 sewing machines	
100 safety lamps	
1 tent with capacity of 20	
1 pair horses	300.
1 spring wagon	100.
Fencing material	150.
Hogs	50.
Cows	200.

1 baking oven (See Allison-James)	150.
1 piano	200.
12 fire extinguishers	
1 chemical engine	
1 watchman's clock	
Window shades	

(3) In view of that fact that most of the students pay a liberal amount for tuition, which covers the cost of their board, it was recommended that an additional appropriation be made for current expenses, so as to make possible the admission of as many students as can be accommodated on the theory that this will involve the Board in no additional expense.

The above recommendations were approved.

SAN MIGUEL - L/Record, 8/29/13, showing need of women teachers who can undertake school work at San Miguel. VOTED to recommend that $250. be provided to meet this need, and that field matron's salary now on the Tucson budget be transferred to this station, thus making provision for two workers.

MENAUL - L/Ross, 9/11/13, asking $650. for an automobile. Mr.Allaben strongly urged the purchase of this as a business proposition to save Mr.Ross's time in going to town and to do away with the necessity of keeping so many horses. Referred to Miss Fish for correspondence with the Pittsburg societies who are providing the Menaul equipment, with the understanding that if they approve, the expenditure shall be made.

LAURA SUNDERLAND - L/Montgomery, 9/12/13, asking an allowance of $75. for special improvements to the campus. VOTED to approve, provided this can be obtained as a special from the Washington societies.

NEW JERSEY ACADEMY - L/Murray, 9/16/13, showing need of a new piano. As a special fund has been contributed to the General Building Fund for this purpose, the request was approved.

WASATCH - L/Johns, 9/26/13, showing need of additional cesspool to provide drainage for the dining hall. Authority granted, the expense to be charged to the Finks Memorial Building Fund.

CALIFORNIA - Mrs.Goddard asks whether Mr.Allaben is to be in San Francisco on his western trip. The advisability of including this in the itinerary was discussed, and it was strongly urged that it be done.

DORLAND - L/Phillips, 9/24/13, asking appropriation of $1200. for the repair of cottages. VOTED to limit amount to be appropriated for repairs to the amount of rental we shall probably receive for the remainder of the fiscal year from the cottages.

Resignation accepted with regret. The matter of appointment of Miss Damkroger deferred for correspondence.

CHICAGO - L/Rev.A.J.Macartney, 9/29/13, relative to the offer of donor to provide salary of young woman, member of his church, as vocal and instrumental teacher among mountaineers. As there is not a suitable vacancy now for such a worker, VOTED to refer the matter to the School Department for consideration.

ELM SPRING - L/Templeton, 9/18/13, asking permission to use salaries on salary account to provide for music teacher. Request granted on Mr.Allaben's recommendation.

Mr.Allaben also presented his report on the work at Elm Spring. Miss Templeton is anxious that if the work is to be continued on any permanent basis at Elm Spring, to have the Turner property purchased and appropriate buildings erected there. It was Mr.Allaben's judgment that it would be unwise to plan any further permanent development of the work at Elm Spring, and that as soon as enlargement is provided on a permanent basis at Dwight, it would be best to consolidate Elm Spring with that school. The following special recommendations were submitted and approved:

(1) That the double beds be replaced by single ones;

(2) That 2 doz. safety lamps, a piano, and 15 yds. hyloplate blackboard be supplied;

(3) That an appropriation of $500. be made to place the school on the same basis as our other boarding schools and relieve Miss Templeton of the necessity of keeping her expenses within the limits of her receipts from tuition. This will not involve any additional expense to the Board, because we are receiving this amount of tuition.

HAINES - L/Webster, 9/13/13, relative to loan of $250. VOTED to make this loan from the Emergency Fund with the understanding that it be repaid in monthly installments of $20.each beginning with March, 1914.

GRANDIN - The following recommendations were made as a result of Mr.Allaben's visit to Grandin:

(1) That, in view of the special opportunity afforded here for the opening of an industrial school, which opportunity undoubtedly includes the very promising basis of financial assistance on the part of individuals belonging to this lumber company in addition to the provision made for the site by the donation of the farm, this work should be undertaken by some agency of the Presbyterian church.

(2) That the Woman's Board take under serious consideration the initiation of the work subject to the following conditions:

(a) That ample testimony is presented to prove that

this is a genuine missionary field such as should be entered by the Woman's Board, if possible. We have no important testimony on record,

(b) That this proposal has the hearty approval of the Missouri Synodical Society, and that this approval is coupled with assurances of special support over and above the regular pledges to the other work of the Board;

(c) That the Company deed to the Board outright the dairy farm, 640 acres, comprising also the mill pond and the artesian well;

(d) That the company, if that is feasible, move the office building to a site near the farmer's home. If this is not feasible, that the company erect a building of equal value or ~~provide a donation of equal value~~ on the farm, or provide $10,000. for this purpose.

VARDY - L/Rankin, 9/27/13, reporting that Miss Rankin is now teaching the public school. The Conference regrets that Miss Rankin did not seek our permission before undertaking this work, and desires to be placed on record as opposed to a combination with the public school extending beyond this year.

FARM SCHOOL - L/Roger, 9/9/13, asking as to the advisability of giving further assistance to the boy, Jesse Rogers, who was injured some time ago. In view of that fact that there is litigation still pending in this connection it was thought inadvisable to make any further provision for this boy's welfare at present.

Special Office Conference, 11/3/13, and Joint Meeting of the Woman's Board Section of School Committee.

There were present:

Members of School Committee.	Members of Woman's Board.
Miss White, Ch.	Mrs. Waid
Mrs. Thompson	Mrs. Gildersleeve
Mrs. Pingry	Miss Fish
	Miss Petrie
	Mr. Allaben

The object of this meeting was to discuss the policy of the Board with reference to the control of the Woman's Board's school and mission work in California, in view of the correspondence received from Mrs. Goddard as follows: Damkroger to Goddard, 8/22/13, Watters to Goddard, 9/10/13, Copy of Hodd to Goddard (no date.)

Mr. Allaben reported that the present method of administering the work in California was not satisfactory from an administrative point of view, and three sourses seemed to be open to the Committee: First, to turn the school over entirely to the California Synodical Society for full support and control; second, to continue the present system of control, which is largely theoretical; third, to assume full responsibility for both control and support. This gave rise to a discussion of the policy of the Woman's Board with reference to the work in self-supporting Synods, and brought up the question of our policy towards immigration. Mr. McAfee was present by invitation, and stated his views with reference to the field of work of the Woman's Board regarding its immigration policy. No action was taken. It was the sentiment of the Committee that the Superintendent of Schools should have consultation with the responsible local officers and

11/3/13.

assume the same degree of responsibility for the executive management in California as for the other schools of the Woman's Board.

Special Office Conference, 11/7/13.

Present: Mrs. Gildersleeve, Miss Fish, Miss Petrie, Mr. Allaben.

-----o-----

Mr. Allaben presented his report of his recent visit to Lawson, Louisville and Mt. Vernon, and his conference with Miss Stockdale at Washington, Pennsylvania, regarding the work at Lawson. Miss Stockdale made the following proposal:

" If the manse at Lawson can be bought for $1,500. or thereabouts, I will furnish the money to buy it during the year 1914, and as early in the year as I can conveniently. The building after purchase to be used for the enlargement of the school and home as may best suit the plans of the Woman's Board of Home Missions. And it shall be called for my mother's sister - Eliza Clark - who lived with us until her death."

The Conference voted to authorize the Supt. of Schools to confer with the Chairman of the Home Mission Committee of Parkersburg Presbytery with a view to acquiring the property in question.

At the Conference of Workers at the Pattie C. Stockdale Memorial School the following workers were present: Miss Laura W. Pierson, Mr. George A. Reaugh, Miss Grace Twining, Miss Minnie B. Newcomb, Miss Evelyn Henderson, Miss Elizabeth M. Elliott, Miss Flora S. Dunton, Miss Margaret Doolittle.

11/7/13

The following outline of the policy of the Board with regard to the relationship to be maintained between the School and the Community Workers was presented:

1. The Board expects the same loyalty to the policies of the School from Community Workers as is demanded of the Principal and Teachers of the School.

2. It is not the duty of any worker to investigate complaints of students. These may be heard and should be reported to the Principal for her information, unless too trivial to notice.

3. It is the duty of each and every worker to do all in her power to secure worthy and deserving students for the School, and to cooperate with the Principal in maintaining the policies of the Board relative to the registration and discipline of pupils.

4. In the cases of prospective or former students whose welfare would, in the judgment of the Community Worker, be promoted by sending them to a more distant school, the Principal should always be consulted. If the Principal disapproves of the proposed course, the case should be referred to the Board for determination.

5. It is the positive duty of every worker to report to the Board any serious delinquency on the part of any other worker, first having discussed the delinquency with the worker in question and notified her that the report is to be made, in order that thus an opportunity may be given the person accused to answer the charges without delay. This same rule should apply to criticisms of methods of carrying on any phase of the work. In all such cases it is of the highest importance that both the discussion and any report that may result therefrom

11/7/13

be treated as matters of sacred confidence between the workers involved.

6. It will have to be borne in mind by all the workers that cases are bound to arise where the interests of individual students will conflict with the general policies of the School. In all such cases it is quite clear that the policies of the School must predominate, as the school should serve as the agent of the entire community and not be guided in its policies by isolated cases.
